Testing my products

I compared my products by four categories, one is texture, another was taste, I had a category for after taste. and my fourth category was nutritional. I had all the people i was testing tell he how it tasted from 1-10 then i got them to tell me what the texture was like 1-10 and then i got them to tell me what the after taste was like 1-10. At the end i asked if they would buy it knowing all the nutritional facts.
